COVID-19 Vaccination Card

1. Local physical vaccination card along with a government-issued photo identification card
2. Hard-copy and digital Overseas Vaccination Certificates are not recognised

COVID-19 VACCINATION CARD

Information about COVID-19 Vaccination

Depending on the COVID-19 vaccine you have received, it consists of two or three doses, and additional doses may be recommended. These must be completed to achieve the best possible protection, and for the protection to be as long-lasting as possible.

The vaccine has been assessed to be safe for use. However, just like other vaccines, you may experience some side effects such as headache, body aches, tiredness and soreness at the injection site, or fever. These usually get better after 1-3 days and may be a sign that your immune system is making a protective response against COVID-19.
